IMAGITEK ANNOUNCES ENHANCEMENTS TO PRODAGIO CONTRACTS MANAGEMENT SOLUTION

Houston, TX – September 9, 2008 – Imagitek, Ltd., developer of world-class Prodagio™ Software business applications for accounts payable, case management, contracts management and self-service, today announced Prodagio Contracts 5.5, a significantly enhanced version of its award winning contracts management solution.

"Increased pressures to reduce costs, comply with regulatory reporting requirements, and manage complex contracting processes continue to be the drivers in this market," said Mara S. Henderson, president, Imagitek. "Sustaining our goal to deliver the best product, this release was heavily directed from our users, a community of leading contract professionals representing the Fortune 1000. The need for a fully optimized contract strategy is critical within today's global economy. We're proud that our application helps these organizations manage this critical business process."

Some of the enhancements offered in Prodagio Contracts v5.5 include:

- Improved authoring with watermarking and e-signature support
- Additional foreign language support
- Single click access to the contract dashboard from reports
- Added visibility to workflows related to the contracts
- Improved task management functionality
- Enhanced email integration

The company will continue to pursue innovative improvements to its line of Prodagio business solutions in order to meet the needs of customers across a wide range of industries.

About Imagitek, Ltd.
